When courtroom litigation or an administrative raid is unavoidable, ACTIP’s entire Litigation Team is available to our clients. All of our considerable resources in experience, association, reputation, legal and technical expertise are brought to bear. Even as ACTIP attorneys are litigating in the court room, we are always amenable to negotiation to settle the dispute in a manner favorable to our client.

Our client’s business goals are the number one priority of our Litigation Teams. We are constantly in contact with the Court, Customs, administrative authorities and the defendant to resolve disputes. In this way we limit the possibility of surprises arising from litigation. ACTIP Corporation guarantees our clients no surprises on the way to satisfying their business goals.
