pre-litigation strategy

https://actip.com.vn/approach/pre-litigation-strategy-a25.html

In Vietnam, the realities of trial litigation can be time consuming and discouraging. Our pre-litigation strategy begins by listening carefully to the client’s business objective and analyzing the client’s litigation options and risk.

Before litigation ACTIP clients are provided a comprehensive report on all litigation strategies available in order to have a strategic litigation overview as well as detailed knowledge of how each litigation option may affect their business goals.
