ACTIP PATENT PROFILE

ACTIP

innovation

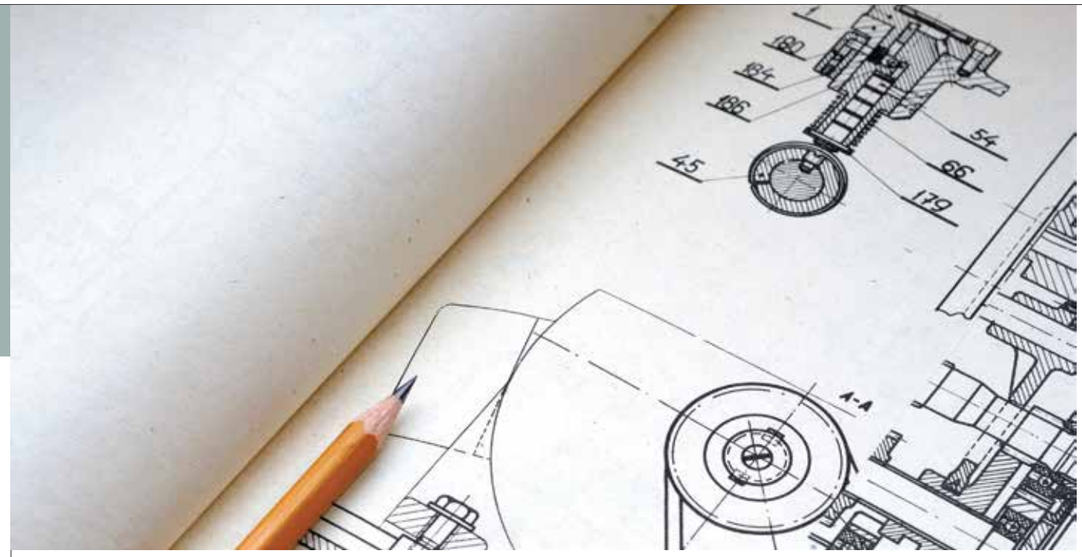

INTRODUCTION

“ Established on the separation of the whole patent department from one of the top-ten intellectual property firms in Vietnam, which was founded by Ho Vinh Thinh in 2001, ACTIP Patent Limited is in the presence of the four top leading former patent examiners of the National Patent Office, together with approximately twenty other experienced patent attorneys and well-qualified technical patent experts. Today, ACTIP Patent Limited is recognized as The Best Patent Practice Firm in Vietnam for our depth of cutting-edge expertise and practical experience. Our core fields focuses on Mechanical Engineering, Biochemistry, Biotechnology and Pharmaceuticals.

Headquartered in Hanoi, Vietnam, with offices in Phnom Penh, Cambodia, Vientiane, Laos, and Yangon, Myanmar, ACTIP Patent Limited provides superior legal and technological expertise both efficiently and directly to all of our clients. We offer patent teams of attorneys, engineers and technical experts in a diverse array of technological disciplines, including Semi Conductor, Mechanical Engineering, Physics, Metallurgy, Computers, Chemical Engineering, Materials Science, Chemistry, Pharmaceuticals, Biochemistry, Biotechnology, and Pharmaceuticals. Let us show you how we can deliver a wide range of academic, legal, technological and practical expertise both on time and on budget. ”

ACTIP Patent Limited

OUR VALUE

❑ *First Class Service*

ACTIP Law firm is the only intellectual property law frm in Vietnam, Laos, Cambodia and Myanmar specializing in enforcement law. We are proud of the highest level of quality of intellectual property legal services and ethical representation that we provide. The smooth procedure for patent prosecution is a compulsory requirement of each of our patent attorneys. We have a high success rate concerning office action responses in the many South East Asian jurisdictions where we represent clients. This is accomplished by our personalized approach to our clients' needs and business goals. Every response to office action is reviewed by experienced, top-ranking patent attorneys to develop the best solution for each client's case. Each client is presented with an easy-to-understand and review synopsis of our response to every office action. We often arrange face-to-face meetings and high-level discussions with the patent examiners and important government officials in Patent Registry offices to facilitate the understanding of our client's business. This allows us to develop a rapport with the patent examiners in technologies for which our clients' applications are applied.

ACTIP attorneys and technical experts routinely act as your "inventor's technical assistant" to remove all mistakes and errors from the patent documents we handle. ACTIP Patent Limited is one of the few professional Patent Agents in our jurisdictions skilled in re-drafting figures, specifications, claims, and abstract of inventions. Some ACTIP patent attorneys have written many original patent applications, a number of which have been successfully granted, litigated or licensed, in some instances to building construction industry. Reliability, customer dedication, and excellent technical support are our top priorities.

❑ *Substantial Experience*

It will not be excessive for us to brag that ACTIP Patent Limited's substantial patent application preparation and prosecution experience starts at the top. Four of our patent members are the Top Patent Examiners of our country, devoting practical periods of their careers in drafting and prosecuting patent applications with the Vietnam Patent Office. Dr. Hoang Anh and Nguyen Thanh Binh each has over 30 years of experience working for the Vietnam Patent Office as pharmaceutical and biotechnological patent examiners, where each of them examined and rendered their own analyses and opinions on approximately 3000 patent applications. Vu Khac Trai has more than 40 years of experience, 30 of which he gained with the Vietnam Patent Office where he conducted the substantive examination over 2000 patent applications in the mechanical arts. Another leading former patent examiner, Nguyen Cong The, has more than 30 years of patent experience during the time he was with the Vietnam Patent Office. In addition to these patent attorneys, all of our patent teams also have significant patent opinion drafting and counseling experience in their diverse technical backgrounds. We are especially active in the fields of chemistry, phamcarceutical chemistry, biotechnology and mechanics.

ACTIP Patent Teams has cultivated strong relationships with Research & Development Centers [R&D] and Technical Institutes at all the leading technical universities in Vietnam. ACTIP attorneys actively support these national educational organizations by teaching Intellectual Property law and co-sponsoring Intellectual Property events for university faculty and students who are involved in R&D programs. ACTIP attorneys lend their experience on a wide range of patent law and intellectual property issues, i.e. patent search, patent transactions, prosecution, due diligence, Freedom-to-Operate [FTO] analysis and opinion, portfolio management, opinions, and counseling.

❑ *Exceptional Guarantee Policy*

All patent applications filed by ACTIP are guaranteed to be free from error in the description of invention, drawings, and claims. In the event any defects, mistakes, and/or irregularities are found in our legal work, our attorneys will revise and correct at our expense. We can make this promise because of the confidence that we have in our patent attorneys' skills, experience, and judgment, as well as their commitment to delivering the highest quality, client-based services.

ACTIP Patent Limited

OUR CORE PRACTICE

❑ *Freedom-To-Operate*

Providing the inventors with comprehensive comments and analysis on the "right to use" opinions of patent is an exceptional diversity of our firm, despite this being very uncommon to most intellectual property law firms here in Vietnam. We regularly provide assistance to the global drugs producing corporations that are contemplating the development and launch of new products to the market with FTO analyses in the chemistry and biotechnology industry. With FTO analyses and opinion we can provide the clients with any potential infringement analyses and invalidity analyses based on both novelty and obviousness. We are confident in delivering the FTO analyses and opinion as our firm has leading former leading patent examiners whose expertise and experiences are in the top-tier of the patent industry.

❑ *Pharmaceutical Patent Practice*

Pharmaceutical patent is one of our strongest expertises. Our Pharmaceutical Patent Team is composed of eight patent attorneys that hold advanced technical degrees in both pharmaceutical and biotechnogical industries. Included in the team are two top former veteran patent examiners in the pharmaceutical and biochemistry arts, who are recognized as leaders of the Vietnam Patent Office, with more than 7000 patent applications in the pharmaceutical, chemical and biotechnical industries under their belts. Also, we have patent attorneys working with the Vietnam Patent Office who have 30 years of experience to assist clients in better understanding complex chemistries, pharmaceutical chemistries and high technical biotechnology issues. Every year we prepare and prosecute hundreds of pharmaceutical and chemical patent applications in Vietnam, Laos, Cambodia, Myanmar and other foreign countries.

Another important aspect of our practice is our combined experience of industry knowledge and substantial practice with intellectual property law expertise. The technical understanding and cleverness of our pharmaceutical patent team allows them to smoothly and efficiently prepare chemical and pharmaceutical patent applications.

❑ *Mechanical Patent Practice*

Contributed to our high reputation is attributable to the high level of skill among our patent attorneys and experts in our Mechanical Patent Team. Fronted by the two leading former Patent Examiners whose expertise and carriers are in the mechanical arts over 30 years with the Vietnam Patent Office, our seven mechanical patent attorney-based-team is committed to delivering the preparation and prosecution of the mechanical patent applications at the highest possible standards. Most of our mechanical patent attorneys began their careers as skilled engineers of multinational corporations, where they assembled and produced the auto, motorcycles and mechanical devices. These attorneys help our mechanical patent clients obtain the broadest scope of protection within the shortest amount of time.

At ACTIP, our Mechanical Patent Team has substantial experiences in preparing and prosecuting mechanical patent and design patent applications, as well as providing counseling for patent infringement and litigation. Unlike other competitors, our mechanical patent attorneys excel in drafting and redrafting description and claims and especially they are very skillful in making drawings in 2D, 3D and any section views by using CorelDraw software such as Photoshop, Adobe Illustrator, Macromedia Flash, etc.

❑ *Electrical & Electronic Patent Practice*

Patent Teams of ACTIP also cover their core value in Electrical & Electronic and Telecommunication Industries. Our Electrical Patent Team is made up of professionals who have education and experience in electrical and electronic engineering with the necessary legal expertise. Each member of our Electrical & Electronic Patent Team holds advance degrees up to and including PHDs in electrical and electronic engineering, computer engineering, or other relevant technology. Many members also have years of hands-on experience working as engineers in electrical, electronic or telecommunication-related industries. Also some of our team members used to be inventors and university teachers in electrical and electronic engineering and computer science. Their expertise has enabled us to secure patents in semiconductors, electronic devices and circuits, digital communication systems and telecommunications industries.

❑ *Construction Engineering Practice*

We are proud of our expertise in providing patent advices in the construction field. We assist our clients by searching the prior art, discussing with inventors about the technical features of patentability and drafting the whole description including specification, claims and drawings of invention. We then prosecute the patent application before the Vietnam Patent Office and foreign Patent Registry as well as before the PCT International Bureau of WIPO from time to time. Our clients are the leading inventors in specialist building products and as such our patent attorneys have substantial experience in seeking patent protection in construction as well as building materials sectors. ACTIP gains the confidence from their clients as the leading patent firm in drafting and prosecuting the volume of patent applications in construction field.

ACTIP Patent Limited

PATENT PROSECUTION

❑ *Reliable Prosecution*

ACTIP's patent attorneys prepare and prosecute both national and international patent applications in almost technology fields. We are especially active in the fields of mechanical engineering, pharmaceutical products, biochemistry and biotechnology. Through our own offices in Vietnam, Laos, Cambodia and Myanmar, we are able to present, file and prosecute patent applications directly. All of our patent attorneys have a sound understanding of technology and English. We are therefore able to prepare patent applications from in-house translation to revealing, eliminating and advising the applicant of any mistakes or defects of their invention, while also guaranteeing that the Vietnamese translation application reflects exactly the nature and technical features as claimed in the original application, therefore ensuring compliance with our patent laws and to obtain the broadest possible scope of protection.

❑ *Patent Expertise*

At ACTIP Patent Limited we have experience in a variety of technologies including:

- Automobile & motorcycle industry, including: brake systems, engine devices, engine controls, automatic transmission, fuel-filling devices and air cleaners
- Telecommunication devices, including: mobile communication systems, networks & wireless systems and optical fiber processing apparatuses
- Mobile communication methods
- Mechanical devices, including hydraulics and film coating transfer tools
- Agricultural devices
- Air-conditioning systems
- Material industry, including: polymer composition, resin, plastic, fibers, silica, and incombustible building materials
- Construction equipment
- Electrical power generating equipment, energy saving devices, electric cookers, Solar energy conversion to electrical and/or heat energy, and bipolar discharge-dissipation lightning air-terminals
- Computer hardware and software
- Pharmaceuticals, including: drugs, topical medicines, probiotics, genetic engineering proteins, pharmaceutical compositions, Chinese traditional medicines and bio-pesticides
- Biochemistry
- Medical devices
- Business transaction processes, including: lottery and sales systems, financial transaction platforms and real estate transaction systems
- Waste/water, pollution treatment
- Telescopes
- Textiles industry

❑ *Patent Services*

Our expert Patent Practice Teams regularly provide the following services in Vietnam, Laos, Cambodia, and Myanmar:

- Conduct patentability searches and studies
- Conduct validity and infringement searches and studies
- Provide "Freedom-To-Operate" analyses and opinion
- Draft the full range of chemical, biochemistry and mechanical patent applications
- File and prosecute patent applications
- Handle expedited and accelerated patent prosecution
- Provide advice and analysis regarding Office Actions from the Patent Office
- Draft opinions, amendments, petitions and appeals to the Patent Office
- Re-draft drawings and claims in-house
- Arrange personal interviews with Patent Examiners
- License the patent agreement
- Negotiate and draft patent and technology license agreements
- Monitor and manage patent annuities and portfolios
- Enforce patents

ACTIP Patent Limited

OUR EXPERIENCE & PEOPLE

❑ *Regional Experience*

In the past ten years our patent attorneys have handled more than 2000 patent applications for both national applications and PCT applications, not including 1500 design applications. Our experience and success in the field of patent law is without parallel in Vietnam, Cambodia, Laos, and Myanmar.

With our focused technical and regional experience, ACTIP attorneys are fully engaged in all phases of the patent process, from early-stage conceptual development and experimentation, to completion, filing, prosecuting applications in both national and international phases, drafting specifications, drawings and claims, providing technical advice and analysis and prosecuting and writing opinions against any office action for patent application. At ACTIP, we have the capacity and power to help our clients achieve their patent objectives in South East Asia.

❑ *Technical Teams*

ACTIP Patent Limited is composed of high experienced teams of attorneys and scientific experts. These teams enable us to knowledgeably analyze both technical and legal issues. All of our patent attorneys and technical experts have advanced technical degrees in such disciplines as chemistry, pharmaceutical chemistry, biotechnology and mechanics. A number of our attorneys hold doctorates in mechanical engineering, biotechnology, biochemistry, chemistry, electronics, telecommunications, information technology and computer & software science. Most of our patent attorneys have worked professionally at multi-national corporations, including research units of technical universities. Many have extensive experience and have worked as supervisory Patent Examiners at the Vietnam National Patent & Trademark Office. At ACTIP, we work diligently and responsibly to present the best case on behalf of our clients.

A B C D E F G

Ho Vinh Thinh, BSc, LL.M
CEO, Director
Patent Agent
Attorney at Law

practice

Ho Vinh Thinh is CEO and Director of the ACTIP Corporation. Thinh's practice includes all aspects of Intellectual Property laws in Vietnam, Laos, Cambodia and Myanmar. His legal experience and technical knowledge span a broad spectrum of patent, design, trademark and copyright issues, including the managing of Corporate Intellectual Property Rights portfolios as well as corporate litigation, both criminal and civil. Thinh's technical expertise has an emphasis on mechanical art and construction area. He is also proficient in drafting invention specifications, licensing and assignment agreements, and providing his expert opinion on trade secrets, unfair competition and anti-piracy programs. His extensive experience covers a wide range of enforcement issues and transfer of intellectual property rights, the arbitration of international trade disputes including negotiating and drafting coexistence and settlement agreements.

experience

Prior to establishing ACTIP Corporation, Mr. Thinh founded Ageless IP Attorneys & Consultants and was a founding member and managing partner of this firm from 2001 to October of 2012. His patent & trademark law experience also includes five years as Intellectual Property Executive Manager of Concetti IP Agents from 1996 through 2001. To date, Mr. Thinh successfully handled thousands of patents, trademarks, designs, and copyright cases including the filing of cases, appeal, litigation and infringement actions in Vietnam, Laos, Cambodia, and Myanmar.

education

- Hanoi Law University (LL.B., 1996)
- Hanoi's Vietnam National University (LL.M., 2003)
- Hanoi Civil Engineering University (BSc., Civil Engineering, 2005)

ACTIP PATENT ATTORNEY

Nguyen Van Dao, Ph.D.
Patent Attorney

practice Ph.D. Dao's core competencies are in the field of Molecular Biology, Food Science & Technology and Enzymes. He has conducted numerous patent searches, drafted patents and analyzed patents in the fields of Enzyme and Fruit Processing Technology, Biochemistry and Pharmaceuticals. He has also extensive expertise in writing, prosecuting and arguing appeals before NOIP of Vietnam.

experience Prior to joining ACTIP Patent Limited as a leader of Biotechnology Team, Ph.D. Dao was the Vice Dean of Faculty of Biotechnology, Hanoi Open University where he was extensively involved in Research & Development activities leading to numerous inventions and patents.

education
- Korea's Seoul National University (Ph.D., Food Science & Technology, 2002)
- Slovakia's Komenski University (MSc., Biotechnology, 1986)

admissions
- Vietnam National Office of Intellectual Property
- Lao Patent & Trademark Office
- Cambodia Patent Office
- Myanmar Registry

Ta Thi Thu Thuy, Ph.D.
Patent Attorney

practice Thuy is expert in patent drafting, patent searches, opinions, and patent analysis in Biotechnology and Pharmaceutical Industries. She specializes in antibacterial microorganisms and Streptomyces species in particular, also bioactive compounds and antibiotics. She is an acknowledged expert in the field of DNA & protein works, DNA analysis, sequencing, gene cloning, DNA mutation, gene inactivation, gene expression, protein purification and analysis.

experience Prior to joining ACTIP Patent Limited as a patent attorney on the Biotechnology & Pharmaceuticals Team at ACTIP Patent Limited, Ph.D. Thuy was a Senior Faculty Lecturer of Biotechnology at Hanoi Open University. While teaching she mentored students and consulted on the development of patents from Research & Development efforts. While working at the university, Ph.D. Thuy regularly published her scientific research in DNA analysis technology.

education
- South Korea's Sunmoon University (Ph.D., Pharmaceutical Engineering, 2007)
- Vietnam's Thai Nguyen University (BSc., Animal & Veterinary Medicine, 1994)

admissions
- Vietnam National Office of Intellectual Property
- Lao Patent & Trademark Office
- Cambodia Patent Office
- Myanmar Registry

Nguyen Thai Ha, Ph.D.
Patent Attorney

practice Ph.D. Ha has a deep knowledge of Electronic Devices and Circuits, Control Systems, and Analog & Digital Communication Systems. She is an acknowledged expert in the field of amplitude, angle modulation and demodulation systems, spectral analysis of these operations and super heterodyne noise conditions in Vietnam. Her work at ACTIP Patent Limited encompasses patent analysis, search, and drafting in the fields of Telecommunications and Electronics Engineering.

experience Prior to her appointment as Leader of ACTIP Patent Limited's Electronics Team, Ph.D. Ha was a senior lecturer at the School of Electronics Engineering in Hanoi University of Science and Technology. She is an inventor and the author of numerous Electronic patents.

education
- Hanoi University of Science & Technology (Ph.D., Electronics Engineering, 2010)
- Hanoi University of Science & Technology (BSc., Electronics Engineering, 1999).

admissions
- Vietnam National Office of Intellectual Property
- Lao Patent & Trademark Office
- Cambodia Patent Office
- Myanmar Registry

Dang Hai Dang, Ph.D.
Patent Attorney

practice Ph.D. Dang specializes in patent opinions and litigation in the fields of artificial intelligence, computer architecture, engineering, computer graphics, computer simulation, computer security & cryptography, software, hardware, and network technology. His skill set includes patent drafting, patent drawings, patent searches and analysis in Information Technology. Ph.D. Dang has extensive experience in computer security and cryptography. He regularly renders opinions and advice on computer-related issues and information technology.

experience Prior to joining as ACTIP Patent Limited's Leader of Electrical & IT Team, Ph.D. Dang was Vice Dean of the Faculty of Electronics & Telecommunications at Hanoi Open University. In this position, Ph.D. Dang has practiced and taught in the Information Technology Industry.

education
- Russian Academy of Sciences (Ph.D., 2008)
- Hanoi University of Science & Technology (BSc., Computer Science, 2001)
- Asian Institute of Technology in Bangkok, Thailand (MSc., Computer Science, 2005)

admissions

Nguyen Minh Hoang, MSc.
Senior Patent Attorney

practice Nguyen Minh Hoang specializes in patent application and preparation including patent drafting, drawings, searches, analysis, and opinions for various mechanical industries. Mr. Hoang has extensive experience with technologies using precision industrial machinery, auto & motorcycle internal combustion engines, and the business computer software and hardware industries, as well as Internet Commerce. He is a veteran in the litigation and settlement of patent infringement cases. Mr. Hoang is the Manager of ACTIP Patent Limited.

experience Before joining ACTIP Patent Limited, Mr. Hoang served from 2001-2012 as Partner and the Manager of Ageless IP Attorneys & Consultants' Patent Department, and the same for other IP agent from 1996-2000. Mr. Hoang also worked with a foreign company specialized in manufacturing and assembling motorcycles as an engineer from 1993 to 1996. During this period of his career, he acquired vast amounts of practical experience and hands-on knowledge by handling thousands of applications for patents related to automobile and motorcycle parts, as well as industrial machines and other inventions in similar technologies.

education
- U.S. Computer Business University (MSc., Computer Science, 2000)
- Germany University of Applied Sciences (MSc., Mechanical Engineering, 2002)
- Hanoi University of Science & Technology (BSc., Mechanical Engineering, 1993)

admissions
- Vietnam National Office of Intellectual Property
- Lao Patent & Trademark Office
- Cambodia Patent Office
- Myanmar Registry

membership INTA, APAA and AIPPI

Cao Huyen Trang, MSc.
Patent Attorney

practice Cao Huyen Trang specializes in broad range of patent law and practice. Her all-sided experience and skills are in patent prosecution, patent drafting, patent counseling, patentability searching and patent due diligence. She has extensive expertise in chemical, pharmaceutical and biotechnology arts and drug industry. Ms Trang also involves her expertise in handling of patent litigation, responses, appeals at the National Office of Intellectual Property of Vietnam.

experience Prior to joining ACTIP Patent Limited, Ms. Trang was with Ageless IP Attorneys & Consultants for three years as a highly skilled and experienced patent attorney after leaving Vietnam Institute of Biotechnology where she spent three years with laboratory. During at the previous firm, she processed hundreds of patent prosecutions.

education
- Vietnam National University of Science (MSc., Biotech Engineering, 2005)

admissions
- Vietnam National Office of Intellectual Property
- Lao Patent & Trademark Office
- Cambodia Patent Office
- Myanmar Registry

Nguyen Thanh Trung, BSc.
Patent Attorney

practice Nguyen Thanh Trung works on patent opinions and applications in General Mechanical Industries. He has significant experience in the handling of patent issues in the Motor Industry and with Automation Technologies. Mr. Trung's patent experience extends to precision machines, industrial machines, and automobile & motorcycle internal combustion engines. In these industries, his skill set includes patent drafting, patent drawings, patent searches, analysis and patent opinions. Mr. Trung is also skilled in patent litigation and negotiating patent infringement settlements. Mr. Trung is the Patent Attorney on ACTIP Patent Limited's Mechanical Team.

experience In the three years immediately prior to joining ACTIP Patent Limited, Mr. Trung worked at Ageless IP Attorneys & Consultants as a Patent Attorney. His Engineering resume includes work for Sin-Hanel Precision Molds Company in Singapore as a Product Designer, time on the Quality Control staff for Taiwan's Chiuyi Vietnam, and a five year stint with Mitsubishi Motors Vietnam as a Supervising Engineer. Mr. Trung's wealth of experience abroad dealing with International World-Class Engineering organizations and his extensive network of contacts at various Government Agencies play a major role in ACTIP Patent Limited's patent litigation practice. His experience in the automobile and motorcycle industry extends to the areas of Corporate Affairs and Public Relations at both Transnational and Multi-National corporations.

education
